

# The Real Index™ (v1.5)

All the Real Books referred to in the *Real Index* were regenerated from pre-existing PDF files. The regenerated version includes page references, so that now the *Real Index* contains links to the actual pages!

The *Real Index* is accurate for the pre-existing PDF files (original versions), too, but the links won't work if you don't have the regenerated PDF files. You can check if you have the regenerated version of a Real Book: if the PDF title says "repaginated", you're all set!
